

VitaDelta Cyber Island

Brothers Across Nigeria International — Vita Delta Galleon

Getting Started

Signing In

Go to app.vitadelta.org

Click “Sign in with Google” or “Sign in with Yahoo” — use whichever email address is already registered for you in the system.

If it says you’re not authorized, don’t worry — this usually just means the email you signed in with doesn’t match your registered record yet. Contact your Galleon or Frigate’s leadership to confirm your account is set up correctly.

Once You’re In

VitaDelta now has two modules — Financial and Membership — reachable any time from the Modules switcher in the navigation, so don’t worry if the tab you need isn’t showing at first.

What you can do beyond that depends on your role — members, officers, and administrators each see a different set of tools. Rather than list everything here, check the Help section in the app’s navigation once you’ve signed in — it shows guidance specific to what you’re actually able to do, and stays current as the system evolves.

Questions?

Reach out to vitadeltaadmin@gmail.com if anything doesn’t work as expected.
